

FORME E SOLIDI  
GEOMETRICI  
NEL PAESAGGIO  
DI VALTESSE

---

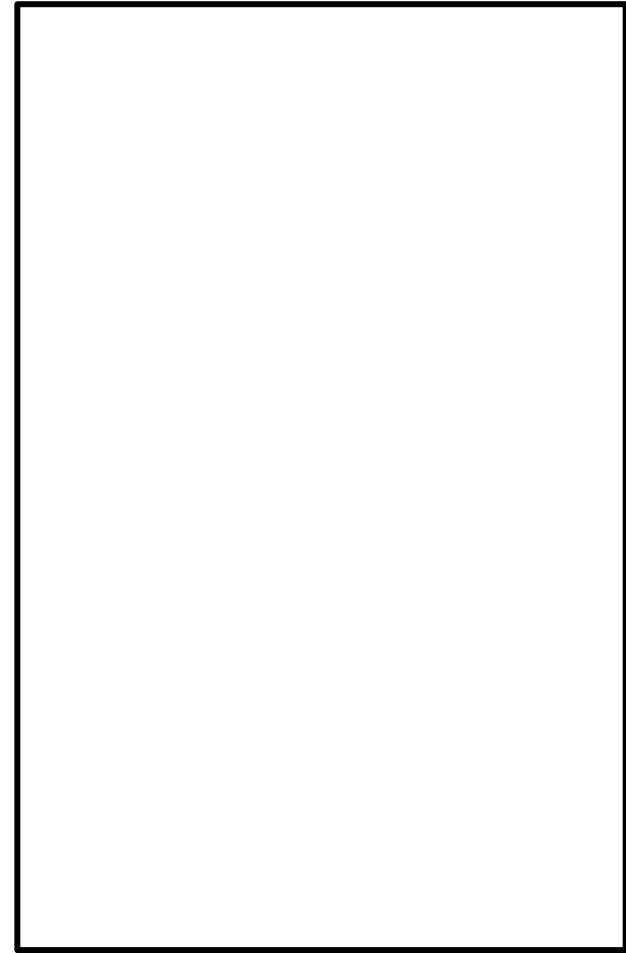

I bambini delle classi 2e della scuola Rosmini, in una lezione all'aperto, hanno osservato il paesaggio alla ricerca di elementi, naturali o artificiali, che richiamassero le figure e i solidi geometrici che abbiamo incontrato nelle attività di geometria.

Il percorso osservato comincia dall'uscita dell'edificio scolastico dal cancello di via Vacha, continua sulla stessa via, segue la pista ciclabile e termina alla fine del boschetto dei bambù.

Nel documento di seguito sono raccolte le immagini degli elementi del paesaggio, naturale o artificiale, che abbiamo notato con riferimento alla forma geometrica o al solido a cui ci rimandano.

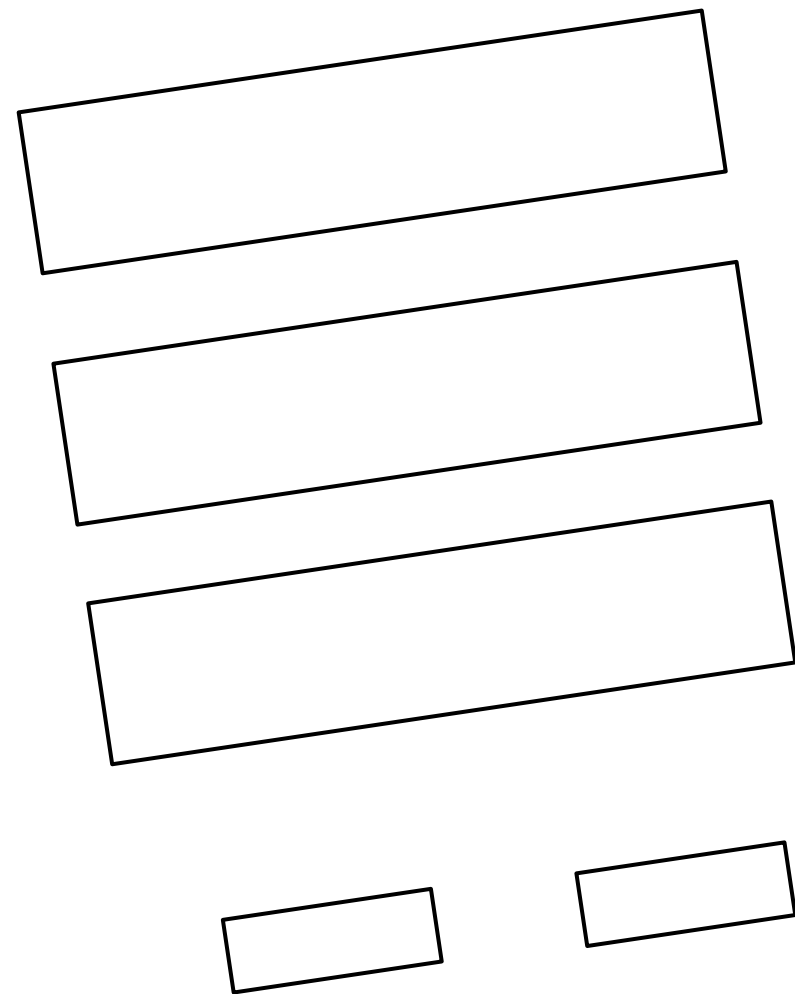

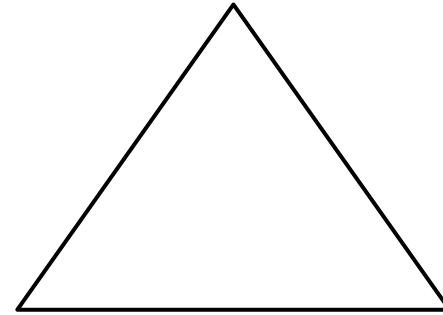

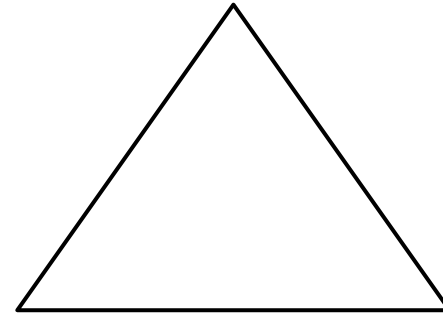

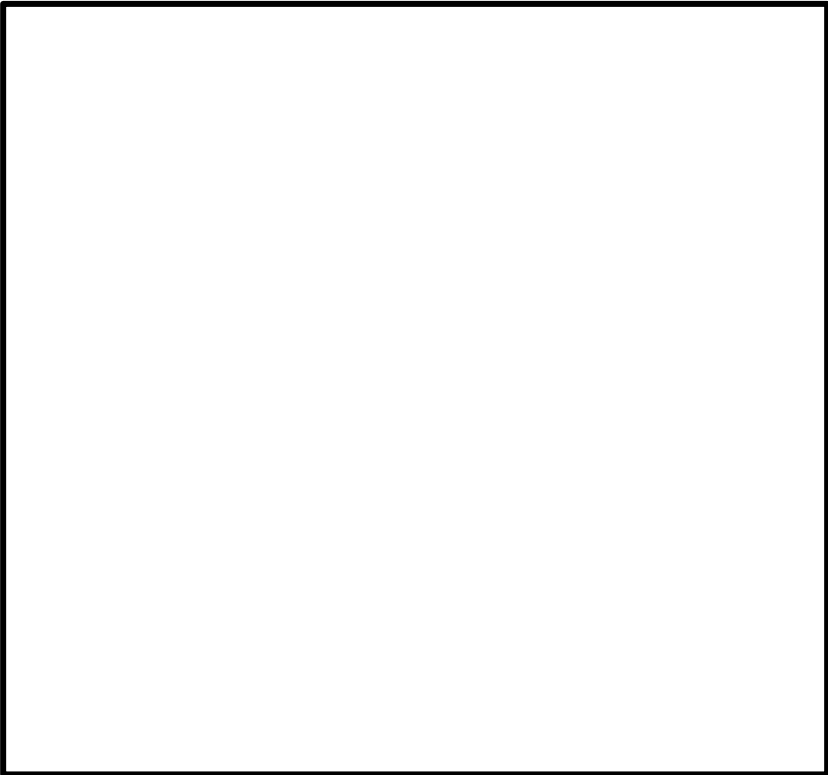

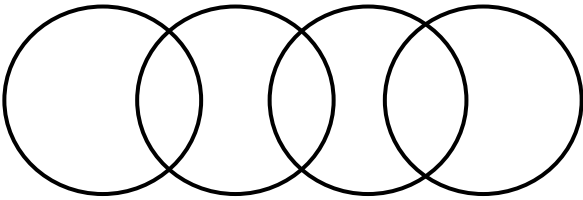

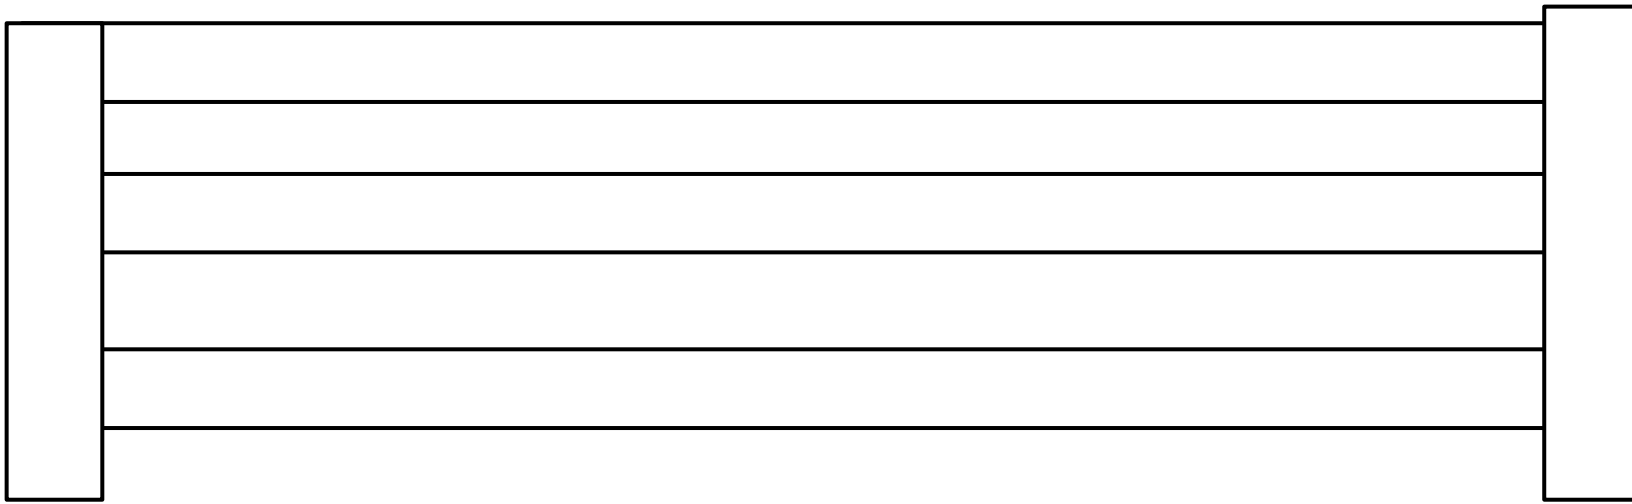

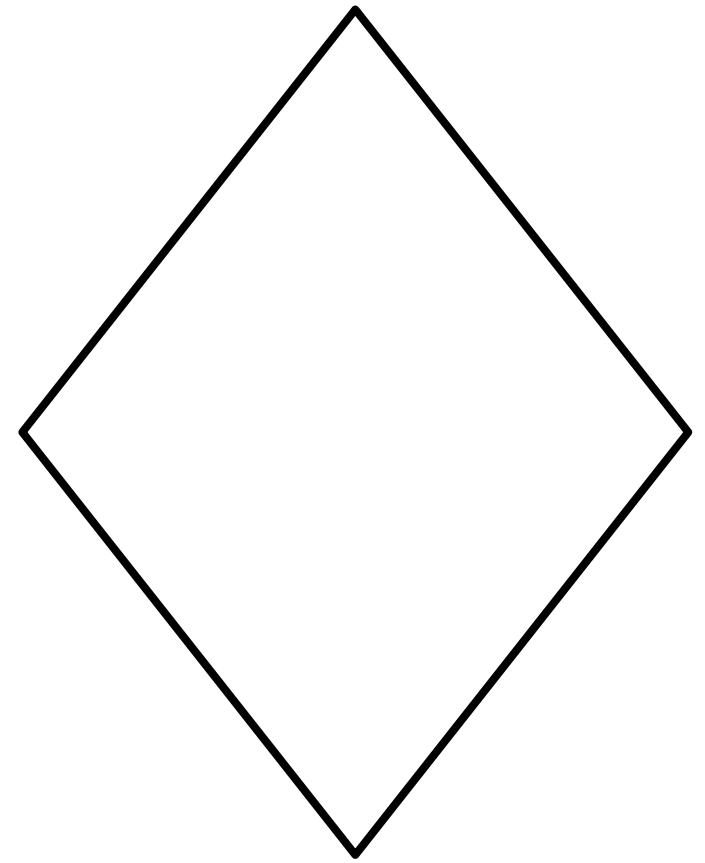

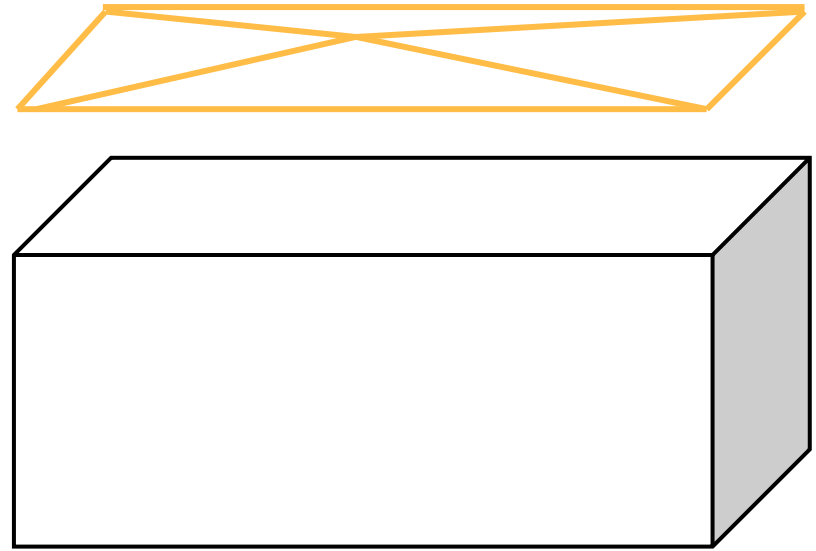

**SOLIDI**

**NEL MONDO COSTRUITO DALL'UOMO**

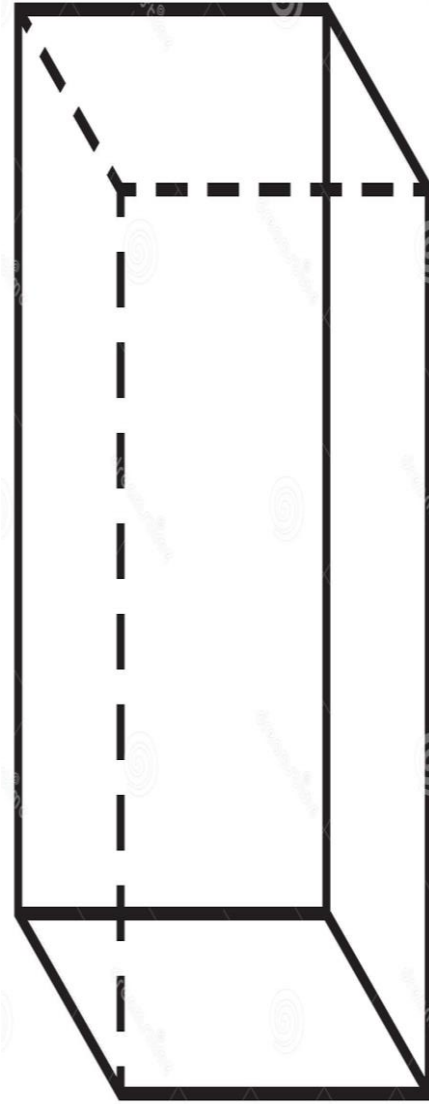

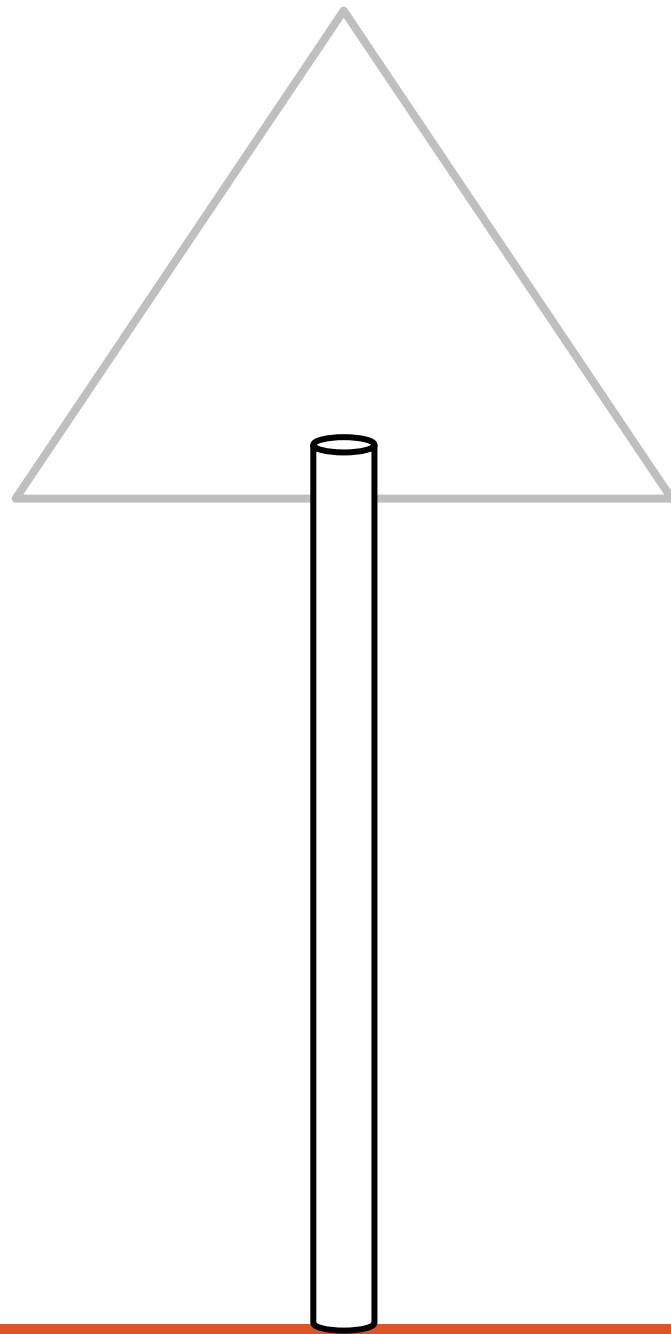

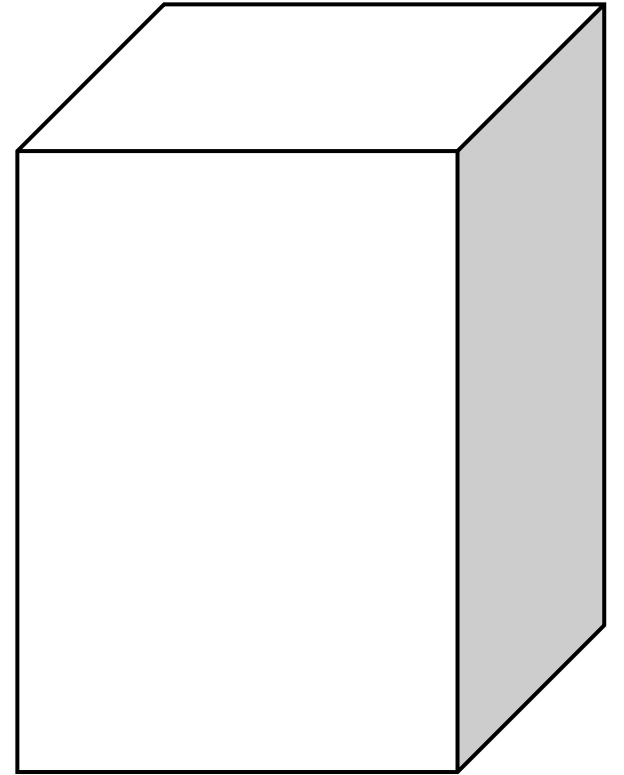

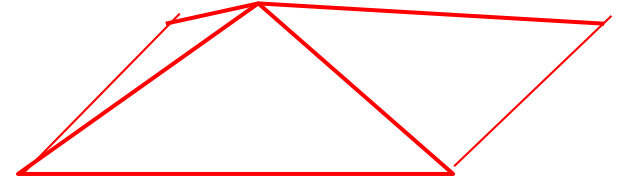

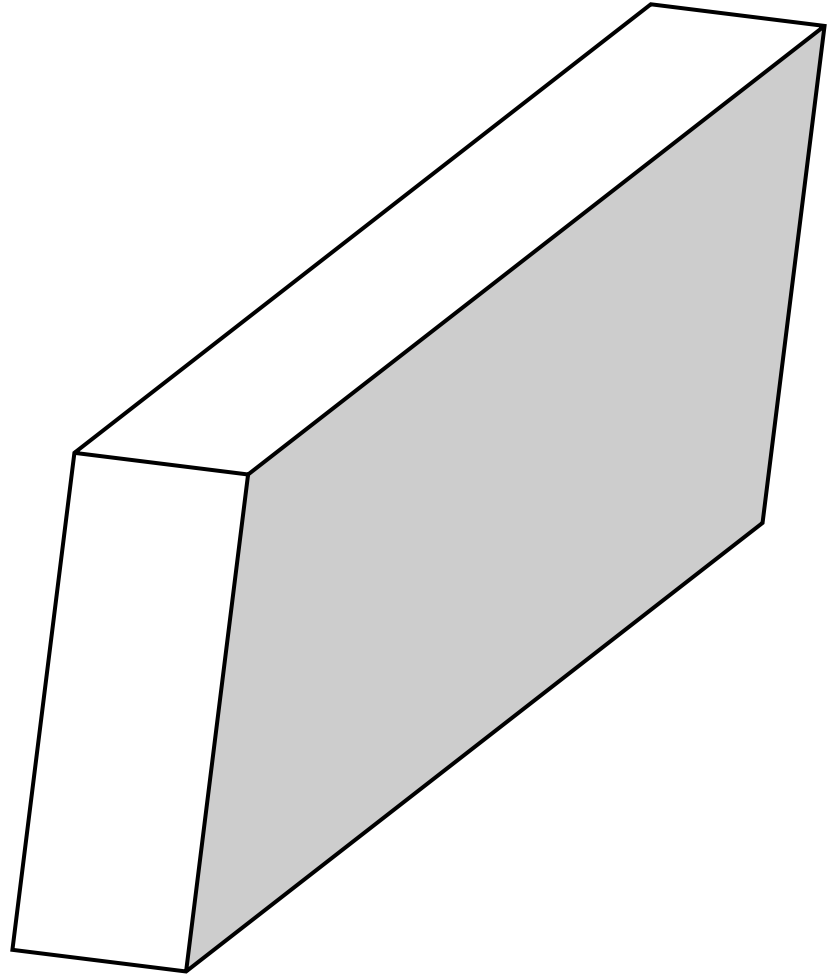

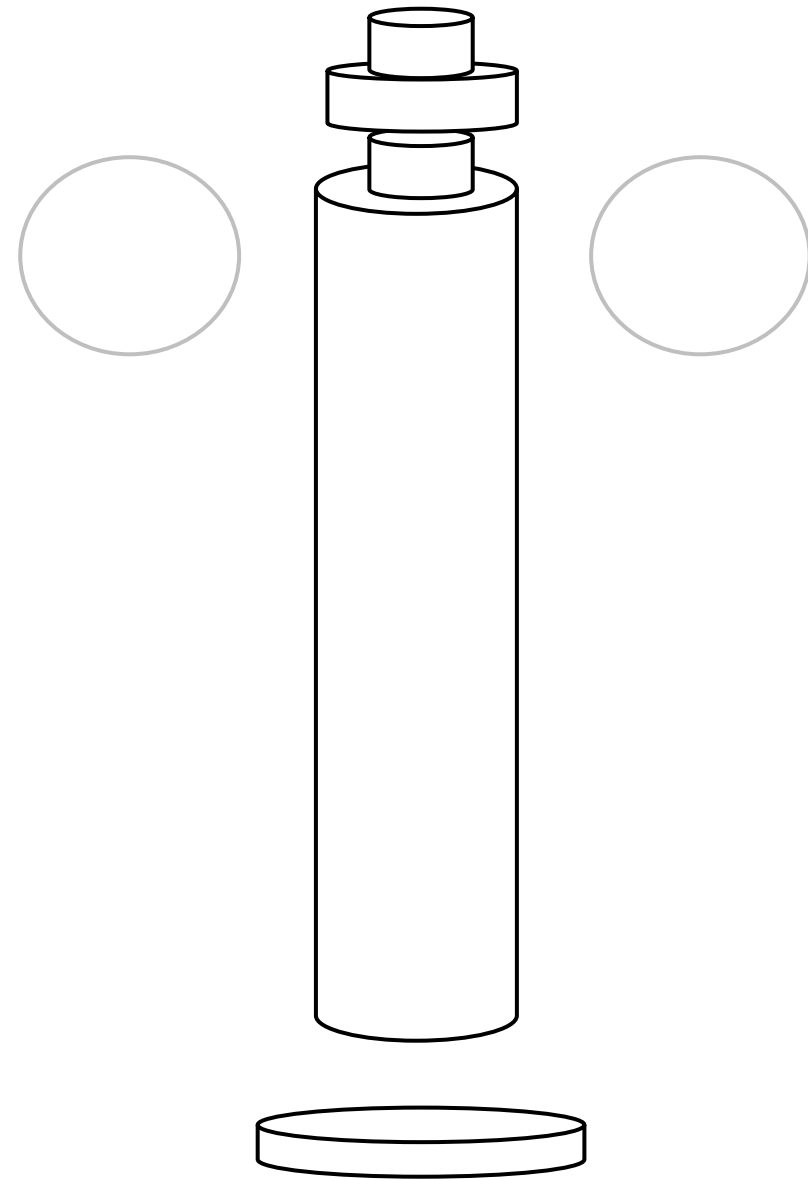

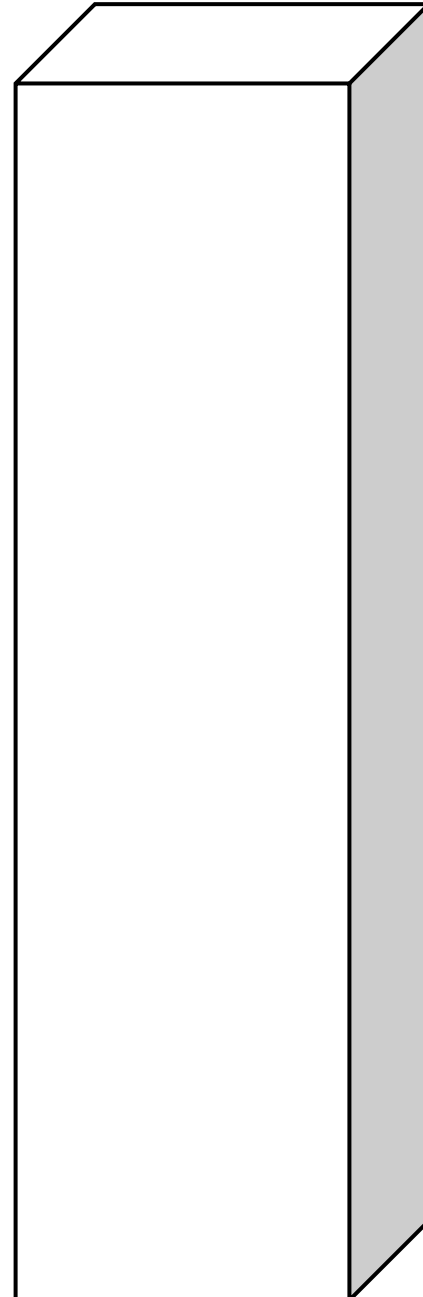

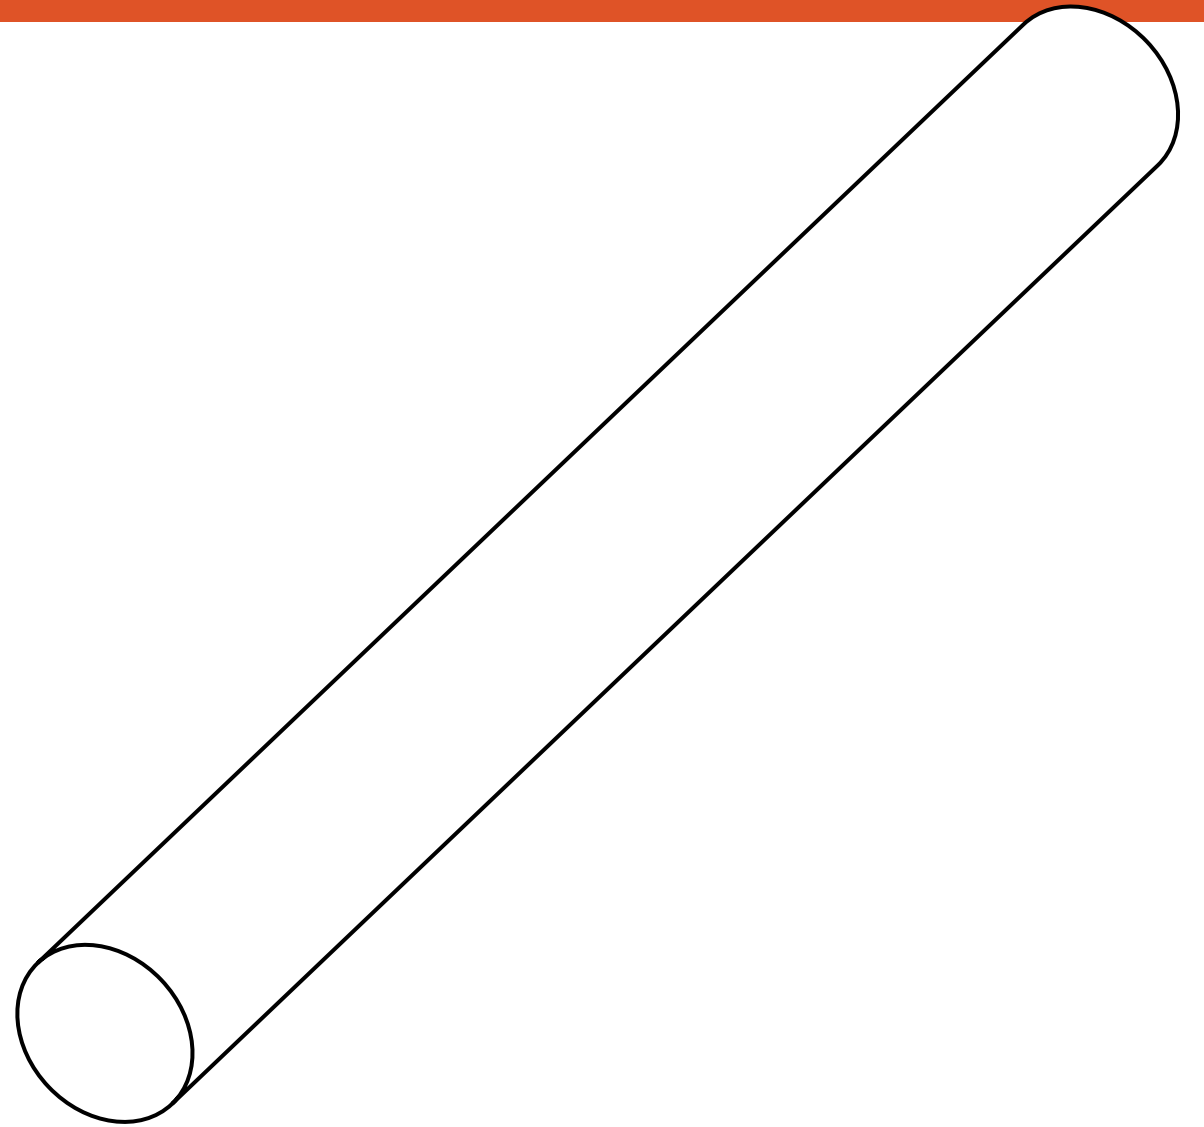

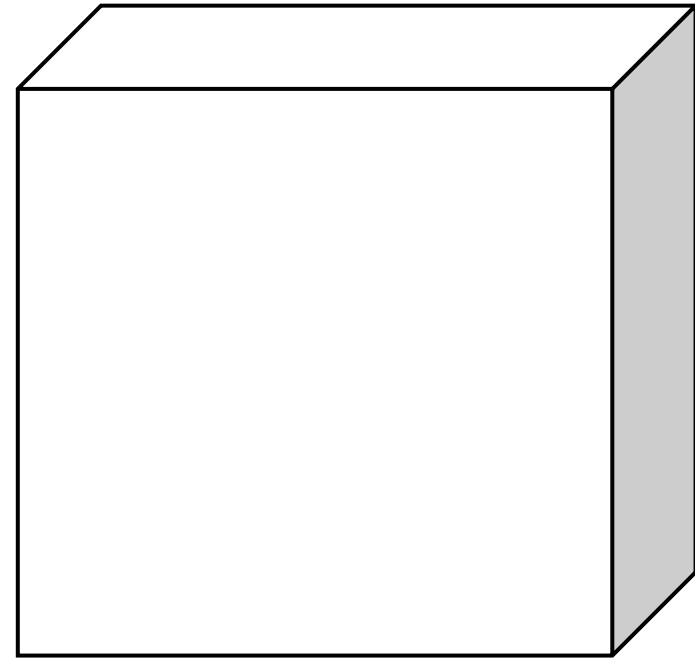

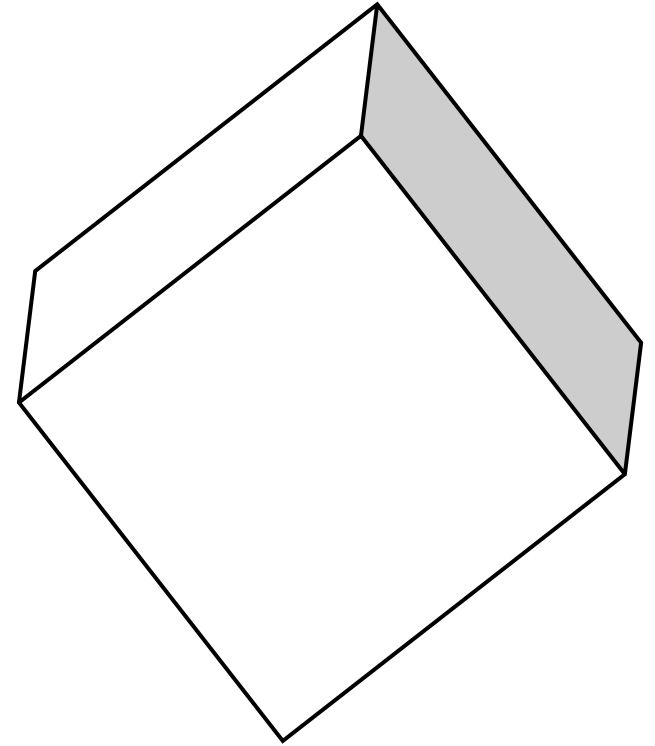

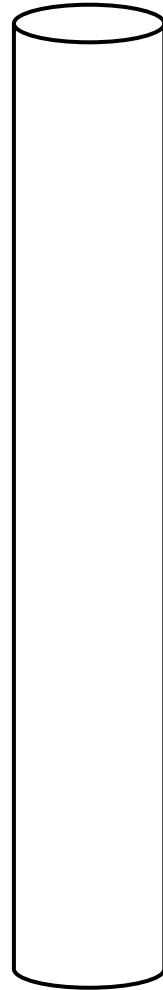

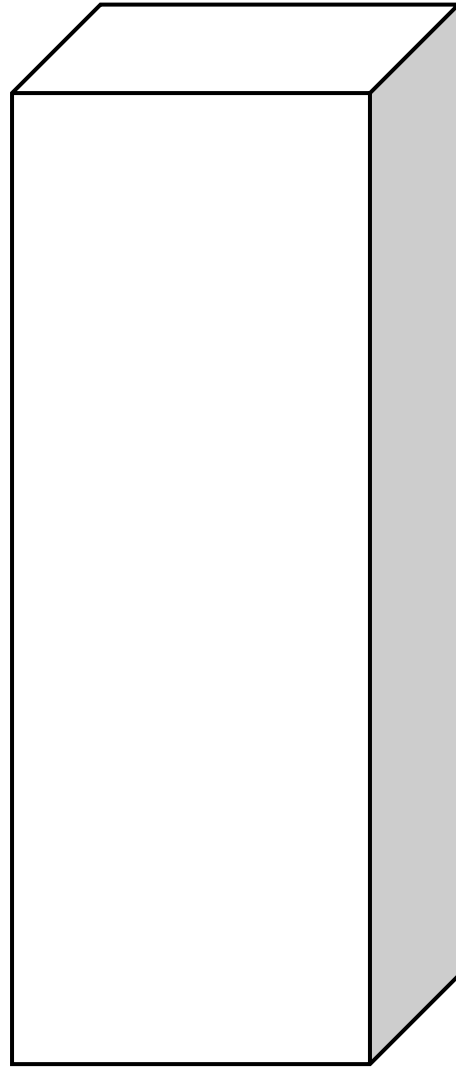

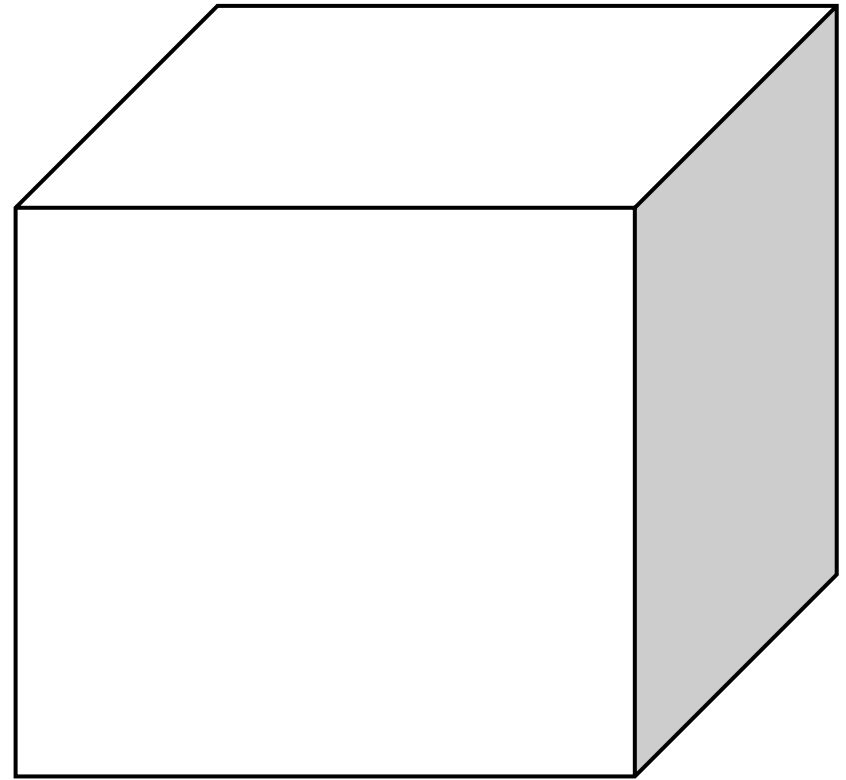

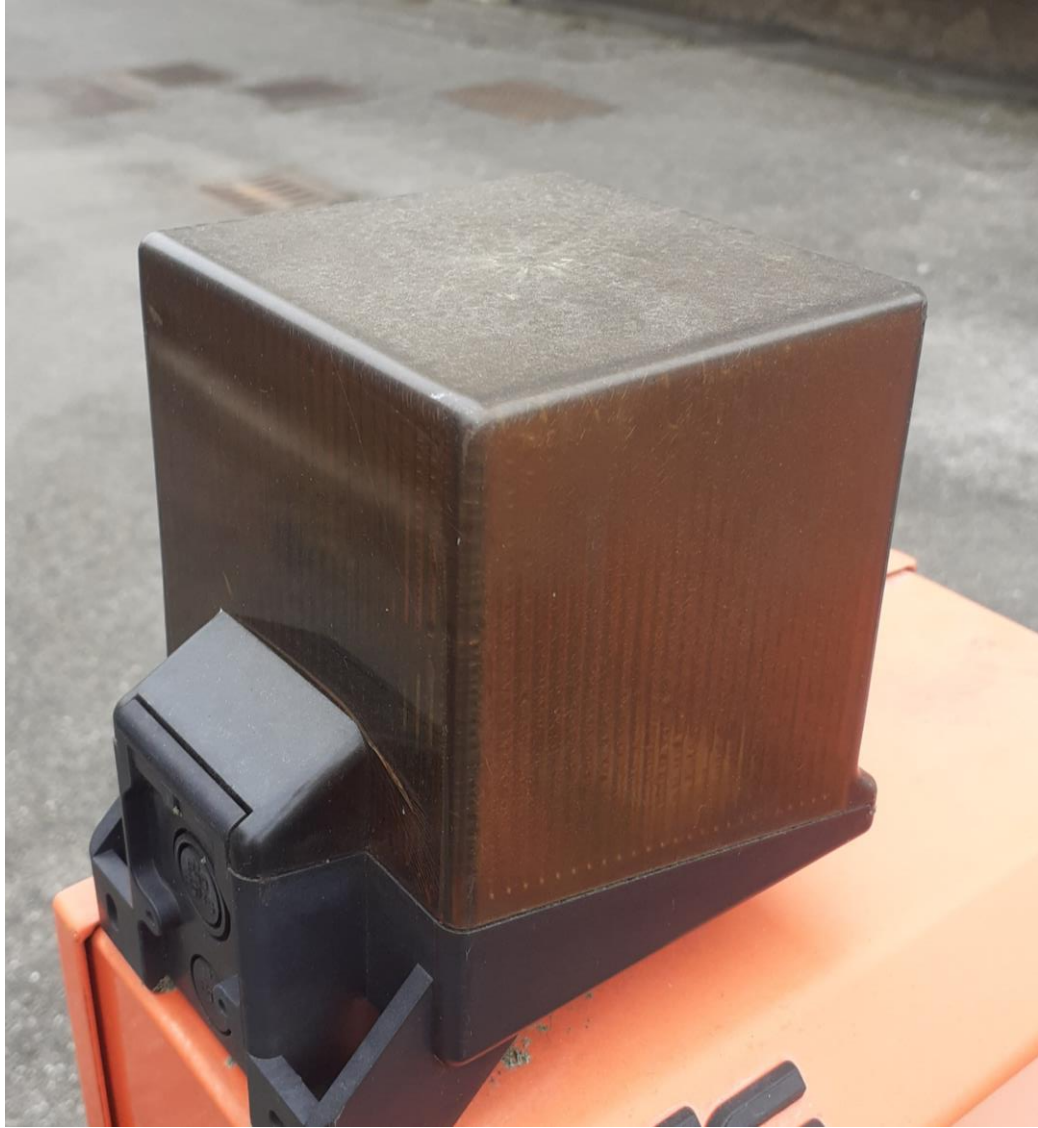

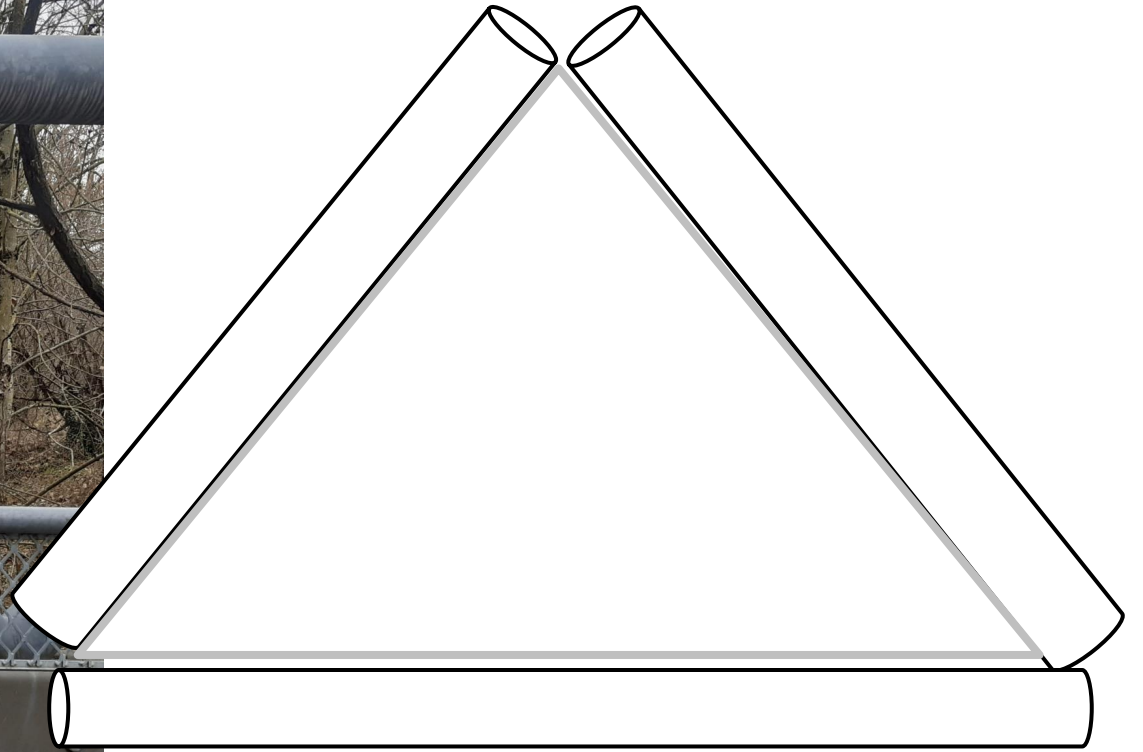

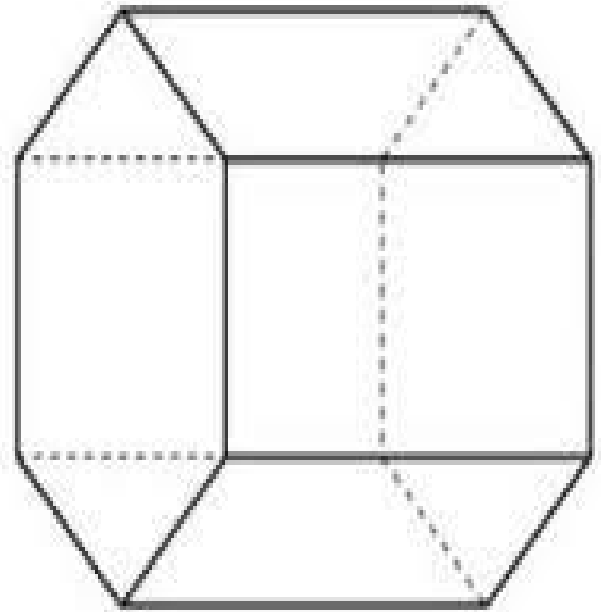

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the right side of the frame, creating a dynamic, layered effect. The rest of the background is plain white.
